

THE NXS™ FAMILY OF RIFLESCOPES: HOW LEGENDS ARE MADE.

For over 20 years, Nightforce NXS™ riflescopes have performed impeccably in the most brutal, unforgiving environments on earth. Conceived to exceed U.S. military performance standards, they have served reliably in theaters of war around the globe.

Serious hunters rely upon them for their ability to endure repeated recoil, blistering heat, sub-zero cold, rain, sleet, snow, mountains, rocks, falls, horses and even airline baggage handlers.

NXS™ riflescopes are built to standards that exceed virtually any other riflescope on the market. Each must pass a battery of tests—including side and front impact—that would destroy an ordinary

optic. Only the highest quality, most durable components are used in NXS™ riflescopes, assuring a lifetime of repeatable precision. NXS™ lenses are painstakingly bedded with our proprietary Mil-Spec formulation, reducing any

glass-to-metal contact that can result in breakages, stress, misalignment, and thermal shock.

It's how legends are built.
